# DIGITAL CITIZENSHIP & ONLINE SAFETY

*A required presentation for student use of School District 60 Learn60.ca accounts*

# LEARN60 PRESENTATION

This slide deck is required for classes to view and discuss before using Learn60.ca accounts and tools.

# PERMISSION

Your school must have a signed permission form from your parents/guardians for you to use a Learn60.ca Google Apps for Education account.

# PAUSE BEFORE YOU POST

Before you post:

- Is it True?

- Is it Kind?

## PUBLIC, PERSISTENT, PERMANENT

When you post anything on the Internet, it is **public**, permanent and persistent.

- This means that what you post online may not go away even if you hit delete. Someone may have already copied it.
- Consider anything you post on the internet public. Just because you use privacy settings does not mean that your post cannot be shared to someone else. Think about what you are posting. Is it true, kind, and helpful?
- Your Learn60 account is not a personal account and should be shared with your parents.

## FOOTPRINTS IN THE SAND ARE DIFFERENT THAN ONLINE DIGITAL FOOTPRINTS

· Footprints in the sand can be erased but digital footprints are permanent.

· This means that when you write and post something online it is like using permanent ink on paper versus using pencil that can be erased.

**PAUSE BEFORE YOU POST!**

Is your post kind, true and helpful? The post will still be there in future years.

You need to ask permission from others to post personal information about them. You are not to post personal information of or about others online using Learn6o accounts or tools.

Ask permission before you take pictures or video of others. Speak up if others take your image without permission.

# PERMISSION FROM OTHERS

**Drive**

Learn6o accounts and Google Apps for Education tools are used for schoolwork only. Do not use them for personal conversations or uses.

You have a Learn6o Drive to save your schoolwork that will move with you from grade to grade.

# SCHOOL WORK ONLY

# SOME DO'S

Follow the same classroom expectations online that you follow in the school. Be safe and keep others safe!

Be kind to others when collaborating digitally.

Online tools and communities are great for learning and sharing. Be courageous and innovative when using your digital device to showcase your learning!

Speak up to a trusted adult if something is wrong or makes you uncomfortable.

Be patient and work through challenges you experience using technology

# SOME DON'TS

- http://youtu.be/DQ5zJvAoNYY
- don't share private info
- don't take pictures of yourself and send to others when they request you to
- don't meet others in person you've met online unless with a parent's permission and go with a group
- if something makes you uncomfortable, speak with a trusted adult

# BE CREATIVE, BE SAFE, AND BE KIND WHEN ONLINE
